88.

WHY SANTELLI FENCING EQUIPMENT IS THE FINEST IN THE WORLD

Santelli equipment is skillfully wrought under the personal supervision of a man whose name means fencing at its finest. The son of a champion and a champion in his own right, George Santelli was celebrated as the strongest sabre fencer in Europe, winning the difficult Austrian, Hungarian and Italian sabre championships, as well as the Austrian and Hungarian foil titles. Indeed, the Santelli family name has been honored in the fencing world for over a century.

Invited to the United States in 1924 to teach fencing, George Santelli quickly became known as a maker of champions. As the nation's head Olympic fencing coach, he accompanied his meticulously trained teams to Amsterdam, Los Angeles, Berlin and London.

The same uncompromising thoroughness and dedication that made George Santelli a champion fencer, then a teacher of champions enabled Mr. Santelli to raise the standard of fencing equipment to its highest level. For almost thirty years the Santelli name has meant equipment at its finest, at prices within the reach of all.
