

WHY SANTELLI FENCING EQUIPMENT IS ALWAYS A TOUCH BETTER THAN THE REST.

The son of a champion, and a champion in his own right, Giorgio Santelli was celebrated as the strongest sabre fencer in Europe, winning the difficult Hungarian and Italian sabre championships, as well as the Austrian and Hungarian foil titles. Indeed the Santelli family name has been honored in the fencing world for over a century.

Invited to the United States in 1924 to teach fencing, Giorgio Santelli quickly became known as the maker of champions. As the nation's head Olympic fencing coach, he accompanied his meticulously trained teams to Amsterdam, Los Angeles, Berlin, London and Helsinki.

In 1947 he founded the U. S. Fencing Equipment Co., which was to become George Santelli Inc. The same uncompromising thoroughness that made him a champion fencer, then a teacher of champions enabled Maestro Santelli to raise the standard of fencing equipment to its highest level.

For forty years the Santelli name has meant equipment and service at its finest at prices within the reach of all. Maestro Santelli died in 1985, but we continue in the tradition of excellence he created.

All Santelli foils are made with the finest imported blades. The #1 foil is mounted with a leather handle, your choice of stainless steel or aluminum 4" guard, and plastic pad. A premier quality blade is used in making the championship foil. The #2 foil has a cord wound handle, 4' stainless steel guard, felt pad, and a blade of softer temper. The #3 foil has a 3 1/2" aluminum guard, felt pad, and a softer tempered blade also. The #3J foil is balanced for youngsters with a shorter cord wound handle and a lighter and shorter blade. The #4, Italian style foil, is mounted with an aluminum guard, and carved plastic handle.
